Boat Brand _____ Length _____ Serial # _____

State Registration # _____ PB / SB _____

Special Hull Configurations (Stabilizers, through hulls, anything that may affect lift)

Do you have lift strap marks on your hull? YES NO. (Circle One) **If not**, you need to supply us a profile drawing of your boat to locate stabilizers, shafts, keel design to facilitate the quick lifting of your boat.

Boats 39 feet and above need to have the **bow shroud and or roller furling disconnected before lifting**. We schedule 1 hour for lifting boats pre-hurricane.

Note: Time over 1 hour is billed in 15 minute increments at \$75.00 for non-standard lifts.

It is required that you fax or E-mail us the cover page of your current liability insurance now as it is required before your boat may be lifted. Coverage should show a date that extends at least to or beyond the end of hurricane season. Otherwise bring your current policy with you when you want you boat hauled out. We will not haul boats without policy on file.

FAX 850-457-1662 E-Mail pspelicansperch@aol.com

I have read and understand all the conditions in the previous pages concerning Hurricane Pre-Pay conditions and I hold harmless, without limitation, all risk and to indemnify and hold harmless Pelicans Perch Marina & Boatyard, Coastal Marina Management, its officers, managers, employees and insurers from and against all claims of damage to the owners vessel. It is agreed that Pelicans Perch Marina & Boatyard and Coastal Marina Management, LLC is not the insurer of the Owners vessel.
